

**The files for this Instruction Manual are available at**  
[www.lodar.com/downloads](http://www.lodar.com/downloads)

The Instruction File Tracker lists the files that we have gathered together to help you fully understand Lodar. The file size is small so that it is easy to forward any relevant file to others.

Please use the Document Index to track file updates, insx.01 is the first issue insx.02 will be the second, etc. All files will follow this protocol to denote the latest issue available to you.

PLEASE CHECK. New files will be added from time to time, these will be for new products or software updates.

If there is other information you would like and you cannot find it here, then please ask.  
SEE CONTACT INFORMATION ON THE LODAR WEB SITE.
